Important Safety Instructions

Read All Instructions before using the Optima/Altus Table.

UL listed units equipped with casters have the following load restriction: -Work Surface: 500 pounds -Shelves: 100 pounds total

ALWAYS LOAD LOWER SURFACES FIRST TO MAINTAIN TABLE STABILITY

WARNING – To reduce the risk of burns, fire, electric shock, or injury to persons:

When using an electrical furnishing, basic precautions should always be followed, including the following:

<u>DANGER</u> – To reduce the risk of electric shock:

NOTE: The Product may have more than one power supply cord, always ensure that both cords are unplugged before movement, testing or repair.

- 1. Always unplug this furnishing from the electrical outlet before cleaning.
- 2. Unplug from outlet before putting on or taking off parts.
- 3. Close supervision is necessary when this furnishing is used by, or near children, invalids, or disabled persons.
- 4. Use this furnishing only for its intended use as described in these instructions. Do not use attachments not recommended by the manufacturer.
- 5. Never operate this furnishing if it has a damaged cord or plug, if it is not working properly, if it has been dropped or damaged, or dropped into water. Return the furnishing to a service center for examination and repair.
- 6. Position table close enough to receptacle such that an extension cord is not needed.
- 7. Keep the cord away from heated surfaces.

- 8. Never operate the furnishing with the air openings blocked. Keep the air openings free of lint, hair and the like.
- 9. Never drop or insert any object into any openings.
- 10.Do not use outdoors.
- 11.Do not operate where aerosol (Spray) products are being used or where oxygen is being administered.
- 12. To disconnect, turn all controls to the off position, then remove plug from outlet.
- 13.For loading always put heavier items at the bottom and not near the top in order to help prevent the possibility of the furnishing tipping over.

GROUNDING INSTRUCTIONS

<u>Warning:</u>

Risk of Electric Shock – Connect this furnishing to a properly grounded outlet only. See Grounding Instructions below.

This product must be grounded, if it should malfunction or breakdown, grounding provides a path of least resistance for electric current to reduce the risk of electric shock. This product is equipped with a cord having an equipment-grounding conductor and a grounding plug. The plug must be plugged into an appropriate outlet that is properly installed and grounded in accordance with all local codes and ordinances.

Danger:

Improper connection of the equipment-grounding conductor can result in a risk of electric shock. Check with a qualified electrician or service person if you are in doubt as to whether the product is properly grounded. Do not modify the plug provided with the product – if it will not fit the outlet. Have a proper outlet installed by a qualified electrician.
