Hagerstown Community College - Technology Innovation Center

OVERVIEW

- **Project:** Education and research facility
- **Architect:** BMK Architects

In this new lab for Hagerstown Community College - Technology Innovation Center

Manchester Series Painted Steel Casework

Epoxy Resin Tops

Pro Series Fume Hoods

The laboratories developed at the Technology Innovation Center were designed to meet the needs of emerging life science firms. With a limited budget New England Lab worked with HCC to provide new casework and fume hoods which met their budget and was under the quotes they were receiving for refurbished material.
