- **GC:** FL Caulfield & Sons, Inc.

## In this new lab for Ironwood - Drug Discovery Lab Phase I & II

Wakefield Series Painted Steel Casework

---

Epoxy Resin Tops

---

Pro Series Fume Hoods

---

New England Lab provided laboratory furniture for two separate projects at Ironwood's new facility. Both phases of the lab fit up included Manchester Series painted steel casework and epoxy resin work surfaces. The phases also included adjustable island shelving. Phase II utilized our 3 1/4" Flex Series panel system to accommodate both shelving and wall cabinets above the benches. Over 100 Pro Series fume hoods were provided, including bench top and floor mounted models in standard and custom configurations to meet the research functions.
