Lexington Series Wood Veneer Casework

Optima Series Round - Leg Bench System

Safeguard Series Fume Hoods

The Jackson Laboratory for Genomic Medicine is a nonprofit research center that identifies the precise genetic causes of diseases. Their Farmington, Connecticut center is located on a 17-acre site on the campus of the University of Connecticut Health Center, in conjunction with UCONN's "Bioscience Connection" project. The 189,000 sq. ft. building includes painted steel casework, stainless steel casework, wood casework, free standing bench systems and fume hoods provided by New England Lab.
