Manchester Series Painted Steel Casework

Epoxy Resin Tops and Sinks

Stainless Steel Sinks

Pro Series Fume Hoods

This project provided much needed materials testing laboratories for the MDOT. Seven independent testing areas were built for asphalt, structures, cement, concrete, soils, chemical and instrument labs. Manchester Series painted steel fixed casework, wall cabinets and flammable cabinets provided the basis for storage and equipment. Pro Series fume hoods, epoxy counter tops, fixtures, eye washes and safety showers provided the remaining components for testing facility.
