

the right formula for UMASS - Dartmouth Research Facility

OVERVIEW

- **Project:** University research facility
- **Architect:** ARC
- **GC:** Suffolk Construction Co.

In this new lab for UMASS - Dartmouth Research Facility

Stratford Series Stainless Steel Casework

Lexington Series Wood Veneer Casework

Epoxy Resin and Stainless Steel Tops

Epoxy Resin Sinks and Pegboards

The Research Facility combines a secure Level 3 laboratory and lab space providing much needed laboratory space for the University of Massachusetts. The space incorporates our Stratford Series stainless steel casework providing the durability and level of cleaning necessary in a BSL-3 facility. Teaching and research space utilized the warm feel of our Lexington Series wood casework with epoxy work surfaces and wood shelves. A variety of fixture, faucets, safety showers, eye washes and other lab accessories were provided to complete the lab project.
