In this new lab for University - Brain and Cognitive Sciences Complex

[Lexington Series Wood Veneer Casework](#)

[Stratford Series Stainless Steel Casework](#)

[Epoxy Resin, Plastic Laminate, and Stainless Steel Tops](#)

[Colortech Lab Fixtures](#)

As a part of this five-story complex New England Lab provided laboratory furniture for wet and dry labs as well as animal facilities. Products included Lexington Series maple casework, epoxy resin work surfaces, stainless steel work surfaces with sinks, and adjustable reagent shelving. Tech desk units were provided in write-up areas and Stratford Series stainless steel casework was installed in specialized areas.
