

CASEWORK CONSTRUCTION DETAILS

Overview

Base Cabinets

Each cabinet is fabricated from prime quality furniture grade cold rolled or type 304-4 or 316-4 stainless steel. All components are die formed, notched, keyed and tightly fitted to form a solidly constructed electro spot welded rigid unit.

Each base cabinet incorporates a fully enclosed 4" high by 3" deep toe space at the front of the cabinet base. All base cabinets are provided with four 3/8" diameter leveler bolts accessible through 3/4" diameter pre-punched holes in the cabinet base. Each cabinet is provided with black press plugs to cover access holes after installation. All sink cabinets have satin coated (galvanized) steel bottoms, powder coated to match cabinets.

All base cabinets have full height removable back panels, except for sink cabinets which have 8" height removable back panels to facilitate plumbing. Removable backs are optional on drawer units. All cabinets have been designed to be vermin resistant.

Base cabinet doors and drawers are interchangeable in the field without special tools. Doors open full width without center posts on 30", 36", 42" and 48" wide base cabinets.

Drawers

Full access drawer bodies are formed with a one piece, coved bottom for effective cleaning, and a reinforcing bend on top edges. Depth of drawers are equal to the body depth of a standard cabinet less two inches. Drawer fronts are 3/4" thick pan construction. The space between the inner and outer drawer front is filled with a sound deadening core. Full extension ball bearing drawer runners have integral stops to prevent accidental withdrawal. Other drawer runner options such as soft closing, and interlocking are available.

Doors

Hinged metal doors feature a sturdy 3/4" thick double-pan construction, with a sound-dampening core housed in the space between the panels. Doors are mounted on high performance 2-1/2" five knuckle 14 gauge hinges, attached with four screws, and are held firmly closed with adjustable nylon roller catches. Framed glass doors are supplied with 1/8" (3mm) clear float glass.

Sliding doors are similar to hinged doors. Each sliding door is top hung with two 1" diameter nylon ball bearing rollers in a steel galvanized double track. The bottom of each door runs in a double PVC track. Rubber bumpers and stops are supplied with all doors.

Unframed glass doors are 1/4" (6mm) clear float glass with ground edges and integral pulls, set in an extruded aluminum shoe with nylon wheels. Doors slide in a top and bottom extruded aluminum track.

All glass supplied in floor cabinets (sliding frameless, hinged framed, sliding framed glass door units) is 1/4" (6mm) clear float glass.

Shelves

Shelves are fully adjustable on 1" increments with all edges formed down and back 1". Pull out shelves are suspended the same as standard drawers.

Hardware

Hardware is not included with products unless specified.

Coating Finish

All parts are pre-treated with an iron phosphate multi-stage process that includes a final sealer and reverse osmosis water rinse. The result is excellent adhesion between the metal and the coating. All exposed surfaces, including door and drawer head interiors, are electro-statically coated with a thermosetting laboratory grade powder coating. A broad palette of colors are available including multiple color schemes. Our coating is quality controlled to ensure consistent color match.

Quality

Our commitment to quality through our ISO Quality Management System assures the reliable, long life of our laboratory furniture.

STEEL LABORATORY FURNITURE CONSTRUCTION

Built to withstand tough laboratory environments, Mott's steel cabinets set the standard for durability and strength. Our casework can be part of fixed installations or components of mobile, suspended or flexible systems. We offer extensive door and drawer configurations, a wide variety of options, colors and finishes - providing you with a variety of layout options to maximize storage in your lab.

Mott's steel casework can meet the most challenging specification. All components have been tested to SEFA 8 Recommended Practices to ensure many years of intensive use in demanding environments. Our commitment to quality through the ISO Quality Management System assures the reliable, long life of your laboratory furniture.

We manufacture our basic cabinet as outlined below. However, today's laboratories often require customization, and to meet your unique needs, we can custom design and manufacture to meet your exact requirements. Simply contact us with your needs.

Drawers - Drawer bodies are one piece, reinforced and available in painted cold rolled steel or stainless steel. Drawer fronts are double pan construction and include sound deadening material.

Field Adjustable Design - Standard base cabinet doors and drawers are interchangeable in the field without the use of special tools. This provides unique future adaptability for changing laboratory needs.

Adjustable Shelves - Cabinet shelves are conveniently adjustable on 1" increments for maximum flexibility.

Protective Barrier - Casework can also be constructed from Sigma Barrier™, satin galvanized steel that provides an additional level of protection against rust and corrosion in high moisture areas.

Sink Cabinets - Supplied with Sigma Barrier™ satin galvanized toe kick base and cabinet bottom to further prevent rust developing from commonly wet operating conditions.

Cabinet Construction - Each cabinet is fabricated with quality workmanship using furniture grade cold rolled steel with high pre and post-consumer recycled content. All components are die formed, notched, welded and tightly fitted to provide maximum strength, rigidity, and consistent appearance.

Coating Finish and Color - A thermosetting laboratory grade powder coating delivers exceptional chemical and scratch resistance, excellent hardness, adhesion, and a quality luster. The long lasting finish is available with 15 standard color options, including multiple color schemes, and color matching capabilities.

Full Height Removable Back Panels - Standard door base cabinet backs are easily removable without the use of tools. This provides effective vermin control, and very importantly, increased access to services.

Drawer Suspension - An array of drawer suspension systems are available: 100lbs to 200lbs load capacity and features such as full extension, soft-close and self-closing.

Handles and Hinges - A wide selection of handles and hinges are available to meet specific aesthetic and functional requirements.

Positive Door Catch - Optional self closing catch on inset cabinets that prevents rebounding. The body of the catch is built into the cabinet and the latching pin is mounted to the door for secure, solid closure. Standard on overlay cabinet design.

Doors - Double pan construction with sound deadening material and durable five knuckle hinges are bolted through the cabinet frame and are standard on all doors.

SEFA 8 LABORATORY FURNITURE

Recommended Practices

The Scientific Equipment and Furniture Association (SEFA) is a voluntary international trade association representing members of the laboratory furniture, casework, fume hood, and related laboratory equipment industry. Mott Manufacturing is a SEFA member.

The SEFA mission is to provide a forum for members to identify strategies to improve the quality, safety and timely completion of laboratory facilities to meet customer requirements.

SEFA has developed, through its membership, several recommended practices that are designed to promote better understanding between manufacturers and purchasers and to assist purchasers in selecting and specifying the proper product to meet the user's needs.

The SEFA 8 Recommended Practices provide manufacturers, specifiers, and users tools for evaluating the safety, durability, and structural integrity of laboratory casework.

Mott's line of laboratory furniture meets the performance requirements of the SEFA 8 Recommended Practices. A copy of the SEFA 8 Recommended Practices can be obtained from Mott Manufacturing complete with a certificate confirming the Sigma Systems line of laboratory furniture compliance to this performance standard.

The following is a summary of some of the SEFA 8 performance standards required of a standard 48" wide standing height base cabinet.

Cabinet Physical Strength Performance Tests

Cabinet Load Test

A 2,000 pound test load is mounted on top of a cabinet to evaluate its structural integrity and load bearing capability.

Cabinet Concentrated Load Test

A 200 pound center test load is mounted on top of a cabinet to evaluate its functional characteristics.

Cabinet Torsional Strength Test

A 200 pound test load is mounted on top of a cabinet which has been raised four inches off the floor with supports under three of the four corners to evaluate the cabinet's structural integrity.

Door Hinge Test

A 200 pound test load is hung from a door as it is cycled through the hinge full arc to demonstrate the door and its

hardware durability.

Door Impact Test

A 240 inch-pound impact test force is applied to the door face to evaluate its impact resistance.

Door Cycle Test

A door is swing tested through 90 degrees for 100,000 cycles to evaluate the hinge durability.

Drawer Load Test

A 150 pound test load is hung from an opened drawer to demonstrate its ability to support a point load at the drawer front and confirm the attachment of the drawer head to the body.

Drawer Cycle Test

A 100 pound static test load is distributed evenly in the drawer and the drawer is cycled 50,000 times from the fully open to fully closed position to confirm a reasonable life of the drawer slide mechanism under full load.

Drawer and Door Pull Test

A 50 pound test load is applied to the pull to evaluate the strength of the pull and its mounting hardware.

Drawer Impact Test

A 10 pound test load is dropped into an open drawer to evaluate the drawer and slide mechanism impact resistance.

Cabinet Surface Coating Performance Tests

Chemical Spot Test

The coated surface is exposed to 49 specified chemical reagents commonly found in laboratory applications to evaluate its resistance to chemical spills.

Hot Water Test

The coated surface is tested to evaluate its resistance to hot water.

Impact Test

A one pound ball is dropped on the surface to evaluate the coating's ductility.

Adhesion Test

A scratch test conducted according to ASTM D2197-86 is conducted to confirm adequate coating adhesion.

Hardness Test

A 4H pencil lead is used to determine the hardness of the coating.

TYPICAL WORK AREA

Details

The following details are provided to illustrate how base cabinets, filler panels and countertops combine to construct a laboratory work area.

Island type configuration with 60" wide counter top, base cabinets, 14" filler panel and reagent shelf. A large space for services is concealed behind the 14" filler panel.

Island type configuration with 60" wide counter top, base cabinets and 14" filler panel. Optional center post assembly with shelving. A large space for services is concealed behind the 14" filler panel.

Standard base cabinet configuration with 24" wide counter top, base cabinet and filler 1" panel.

Base cabinet configuration with 30" wide counter top, base cabinet and filler 7" panel. The area covered by the 7" filler panel provides space for required services.

CABINET STYLES

The full range of Mott cabinetry is available in the following styles:

Our steel cabinets can be fitted with your choice of door and drawer fronts made from painted steel, stainless steel, wood, plastic laminate or phenolic resin. Typically designed with overlay construction, inset fronts can also be provided. Our flexibility in design allows you to create a unique lab that appeals to aesthetics, while also meeting the varied preferences and complex needs of the laboratory user.

Inset Cabinets

Powder Coated Steel Inset Cabinet

The long-lasting powder coated finish, with over 15 standard color options, including multiple color schemes can also be matched to custom colors. Standard construction.

Stainless Steel Inset Cabinet

Type 304 or 316 stainless steel are manufactured to a No.4 finish. Use option code 51 for type 304 stainless steel. Use option code 52 for type 316 stainless steel.

Architectural Overlay Cabinets

Powder Coated Steel Architectural Overlay Cabinet

To specify Architectural Overlay design use option code OL. The long-lasting powder coated finish, with over 15 standard color options, including multiple color schemes can also be matched to custom colors.

Stainless Steel Architectural Overlay Cabinet

To specify Architectural Overlay design use option code OL. Type 304 or 316 stainless steel are manufactured to a No.4 finish. Use option code 51 for type 304 stainless steel. Use option code 52 for type 316 stainless steel.

Architectural Overlay Cabinets With Wood Veneer, Plastic Laminate, Phenolic Resin Fronts

Wood Veneer Fronts: Combine the strength of our steel casework with the aesthetic warmth of wood fronts. We can provide a wide range of wood veneers in various cuts, matching and sequencing options, for drawer and door fronts. We offer a variety of stains and custom staining to match existing casework. Typically designed with overlay construction, inset fronts can be provided.

Plastic Laminate Fronts: Integrate the durability of our steel cabinet construction with the endless combinations of high-pressure laminate fronts. Typically designed with overlay construction, inset fronts can also be provided.

Phenolic Resin Fronts: Pair our rugged steel cabinet construction with our wide selection of phenolic resin fronts to create a resilient cabinet for harsh environments. Typically designed with overlay construction, inset fronts can also be provided.

SIGMA BARRIER™ COATING

Mott's Sigma Barrier™ coating provides excellent moisture and corrosion resistance in applications that involve high levels of wetness and humidity. Our full range of powder coated products are available with Sigma Barrier™ coating. It is standard on the bottom of all sink cabinets to protect against rusting in moist, high abuse areas. To specify Sigma Barrier™ use option code 53. Contact Mott for detailed Sigma Barrier™ test results.

OPTIONS

Door/Drawer Handles

Several different styles of door/drawer handles that are offered to suit specific customer requirements. Please use the option numbers below to specify the handle of your choice.

* Provide complete specification and source for all special options ordered.

Option Code	Description
16	Ship handles not installed
18	Horizontally mounted handles
29	Other customer specified hinge*
69	Other customer specified handle*
6A	Recessed stainless steel tapered pull

OPTION 62 (Standard)
4" Brushed Aluminum Pull

OPTION 60
4" Black Nylon Pull

OPTION 61
4" Stainless Steel Wire Pull
OPTION 68
4" Aluminum Wire Pull

OPTION 63
4" Chrome Pull

OPTION 64
5" Black Flush ABS Pull
64B Beige, 64G Gray,
64W White

OPTION 65
4" Flush Aluminum Pull
For Sliding Doors

OPTION 65
4" Flush Aluminum Pull
For Hinged Doors and
Drawers

OPTION 66
4" Flush Aluminum
Painted Black Pull
For Sliding Doors

OPTION 66
4" Flush Aluminum
Painted Black Pull
For Hinged Doors and
Drawers

OPTION 67
Flush Full Width Pull

Door Hinges

Mott cabinets come with durable 14 gauge, five knuckle hinges. Hinges are available in black powder coat, chrome plated or stainless steel finishes. Please use the option numbers below to specify the hinge of your choice.

OPTION 21
Chrome Hinge (Standard)
OPTION 22
Black Hinge
OPTION 23
Stainless Steel Hinge

Overlay Hinge for
cabinets with steel
fronts

Overlay Hinge for
cabinets with wood
fronts

OPTION 20
Dull Chrome Overlay Hinge
OPTION 24
Stainless Steel Overlay Hinge

Drawer Body & Suspension

Drawers are available in powder coated cold rolled steel or stainless steel with the available options.

Option	Description
00	Modified door/drawer configuration
50	304 stainless steel drawer bodies on powder coated steel cabinet
26	200lb full extension drawer runners
F26	File drawer with 200lb full extension drawer runners
I01	100lb full extension drawer runners with interlock
I26	200lb full extension drawer runners with interlock
S01	100lb full extension soft close drawer runners
S26	200lb full extension soft close drawer runners
59	Customer specified drawer runners (customer details required)

OPTIONS

Lock and Key Options

Option	Description
30	Standard locks on doors/drawers supplied and factory installed*
31	Provisions for standard locks on doors/drawers (holes & tabs)*
37	Hasp Lock (padlocks not included)
37A	Hasp Lock with stainless steel plate (pad lock not included)
38	Customer specified locks on doors/drawers supplied and factory installed**
39	Customer specified locks on doors/drawers supplied and not factory installed**
BS	Best locks (housing only), core not provided
LK5	5 pin tumbler with non-removable core, three level keying
LK6	5 pin deadbolt with non-removable core, three level keying

Notes: *Standard lock is a disc tumbler lock. Each cabinet is keyed differently per unit unless otherwise specified.

**Provide complete specification and source for all special options ordered.

All Locks Keyed Different Per Unit

Locks are keyed different per unit from other units.

Note: This is the standard key schedule with disc tumbler lock supplied for option code 30 unless otherwise specified.

All Locks Keyed Alike

All locks are keyed alike, each lock can be opened with a single key.

Locks Keyed Alike in Sets

Locks are keyed alike in sets. Only one key will open one set of locks within the set. Up to 229 key changes for disc are available.

Locks are keyed different from other locks. Up to 229 key changes for disc are available.

Master Keyed Locks

All locks are keyed different from all other locks. Each set within a group can be opened with a master key. Up to 229 key changes for disc are available.

Pin Locks Keyed Different, Grand Master & Master Keyed

All locks are keyed different from all other locks. Each set within a group can be opened with a master key. All groups can be opened with a grand master key. 400 key changes and up to 10 master keys.

MOBILE BASE CABINETS

Mobile Cabinets

Our steel cabinets can be fitted with your choice of door and drawer fronts made from painted steel, stainless steel, wood, plastic laminate or phenolic resin in inset or architectural overlay design.

Heavy duty locking 3-1/2" twin wheel casters provide a total load rating (including mobile cabinet and work top) of 500lbs. Tip resisting counter weights are provided to aid in safe operation. Resulting mobility allows the user to quickly and easily move to another workstation, as tasks change. Use option code 77 for casters on cabinets.

OPTIONS

See Steel Specification & Options section for information on the following options:

- Door and drawer handles
- Door hinges
- Drawer body and suspension
- Lock and key options

BASE CABINET OPTIONS

Option	Description
00	Modified door/drawer configuration
02	Label holders on all doors/drawers
03	Numeric or alpha identification disks on all doors/drawers (customer details required)
04	Standard louver configuration on doors (6 louvers at 3" wide x 5-1/2" high)
05	Non-standard louver configuration on doors (customer drawing required)
07	Cut-outs for electrical and/or plumbing services (customer drawing required)
08	Security proof panel(s)
09	Stainless steel waste flap
10	One fixed drawer divider per drawer (centered in drawer)
11	Multiple drawer dividers per drawer (customer drawing required)
12	Pull out writing board * - cold rolled steel
13	Pull out writing board * - cold rolled steel & high pressure laminate writing surface
14	Ventilation grill in toe kick base
15	Finished back on cabinet
16	Ship handles not installed
17	Nylon levelers
17C	Nylon levelers with counter weight
18	Horizontally mounted handles on doors
19	Full width drawer on 5" high apron
26	200lb full extension drawer runners
40	One extra cabinet shelf
41	Two extra cabinet shelves
42	One interior cabinet shelf on full extension runners (replaces fixed shelf)
43	Two interior cabinet shelves on full extension runners (replaces fixed shelves)
44	Three interior cabinet shelves on full extension runners (replaces fixed shelves)
48	Keyboard tray (replaces drawer)
50	304 stainless steel drawer bodies in power coated cold rolled steel cabinet
51	Component made from 304 stainless steel
52	Component made from 316 stainless steel
53	Galvenneal steel cabinet construction (Sigma Barrier™)
54	304 stainless steel drawer bodies in galvenneal steel cabinet (Sigma Barrier™)
56	Other customer specified material
59	Customer specified runners (customer details required)
70	Front toe kick
71	Toe kick - front & left side
72	Toe kick - front & right side
73	Toe kick - front & 2 sides
74	Toe kick - front & back

Option	Description
74A	Toe kick - 1-1/2" on back
75	Toe kick - front, back & two sides
76	Replace toe kick with four square legs
77	Replace toe kick with four casters
78	Replace toe kick with customer specified casters
79	Other customer specified base or toe kick
84	Stainless steel bin insert
85	PVC bin insert
89	Lazy Susan storage unit for corner cabinets
90	Sink supports - for under counter mounted sinks
AD	Add - a - drawer design (6" high construction, applies to top drawer)
BF	Replace toe kick with 4" bullet feet
C25	Replace toe kick with 250lb casters
C35	Replace toe kick with 350lb casters
DC2	Magnetic door catch
F1	Welded finished top
F2	Welded finished top & back
F26	200lb full extension runners on file drawers
FCW	Front corners of doors and drawers welded
I01	100lb full extension runners with interlock
I26	200lb full extension runners with interlock
LA	Bilingual label (French/English)
LF	Longitudinal file hangers on file drawers
NB	No base, cabinet to sit on floor, levelers included
NC	No base, cabinet to sit on 4" high curb, levelers not included
NF	No cabinet floor and toe kick is integral with door
OL	Overlay design
PC	Foot pedal cutouts centered
PDC	Positive door catch (standard on overlay cabinets)
PFE	Pull out writing board * on full extension runners
PL	Foot pedal cutouts left hand side
PR	Foot pedal cutouts right hand side
PW	Pre-wired (customer details required)
RB	Removable back on drawer cabinet
SK	Skid item
S01	100lb full extension soft close drawer runners
S26	200lb full extension soft close drawer runners
T1	Replace one shelf with one pull out tray on full extension runners with 2" high lip
T2	Replace two shelves with two pull out trays on full extension runners with 2" high lip
T3	Replace three shelves with three pull out trays on full extension runners with 2" high lip
WF	Wood fronts - see specifications
WO	Wood fronts provided and installed by others

Note: * 30" wide cabinets and larger receive two pull out writing boards, one pull out board is provided on full width drawer cabinets.

All dimensions and sizes shown are nominal unless otherwise noted.

48"	55B0300	18"

- Flipper door units are 16-1/2" high (no shelf is provided)
- The flipper door on these units swings up and into the cabinet body
- Order this cabinet to match width of support structure frame
- Add option code FR to suspend this wall cabinet from Sigma Cart™ and Sigma Flex™
- Add option code HR to suspend this wall cabinet from Sigma Frame™

Wall Cabinet "J" Mounting Rail

Width	Item Number
24"	WHR0024
30"	WHR0030
36"	WHR0036
42"	WHR0042
48"	WHR0048
60"	WHR0060
72"	WHR0072

- A "J" Mounting Rail is required to hang metal above-counter storage cabinets on to Sigma Flex™ or Sigma Frame™ products
- Order "J" rails to match width of support structure frame and Wall Cabinet Hanger Rail
- "J" Rail ships loose

"Z" Wall Mounting Rail

Option Code
ZR

- Add option code "ZR" to any wall cabinet to have a "Z" Mounting Rail shipped with the wall cabinet
- The "Z" Mounting Rail is 16 gauge zinc coated steel and mounts to the wall to easily install and align wall cabinets
- Cabinets must still be anchored to wall to support rated load
- "Z" Wall Mounting Rail ships loose

Wall Cabinet Hanging Rails

Width	Sigma Flex™		Sigma Frame™

S26	200lb full extension soft close drawer runners
T1	Replace one shelf with one pull out tray on full extension runners with 2" high lip
T2	Replace two shelf with two pull out tray on full extension runners with 2" high lip
T3	Replace three shelf with three pull out tray on full extension runners with 2" high lip
WF	Wood fronts - see specifications
WO	Wood fronts provided and installed by others

See Steel Specification & Options section for information on the following options:

- Door and drawer handles
- Door hinges
- Drawer body and suspension
- Lock and key options

ACID STORAGE CABINETS
34-3/4" HIGH X 18"/22" DEEP

See page E18 for vent hole locations.

Acid Storage Units (18" Deep)

up to 24" wide

30" and wider

Width	Right Hinged	Left Hinged	# of Doors
15"	1931011	1931211	1
18"	1131011	1131211	1
24"	1231011	1231211	1
30"	1331011	-	2

- Self closing door(s) provided
- Add option code FL to order self closing door(s) with fusible link

INSULATED SOLVENT CABINETS
44" HIGH X 18" DEEP
Insulated Solvent Units

- Solvent Units are designed to OSHA and NFPA 30 standards
- Self closing doors provided
- Add option code FL to order self closing doors with fusible link
- These units include threaded vent connections in the back (standard location) with flame arresting screen and a three point locking handle
- For threaded vent connections on both sides with flame arresting screen use option code VS
- Includes two adjustable shelves

GOGGLE CABINETS

30" HIGH X 10-1/2" DEEP

Goggle Cabinet

Width	Item Number
24"	52C0260

- Goggle cabinets expose safety goggles to germicidal ultraviolet light
- When the doors are closed and locked, the inside of the cabinet is flooded with germicidal ultra violet light
- A safety interlock device automatically shuts off the ultraviolet light when the doors are opened
- Dimensions: 24" (60.96cm) Wide, 30" (76.2cm) High, 10-1/2" (26.67cm) Deep
- Cabinet can be mounted on a wall or table and includes two safety door switches and key locks
- Holds 30 pairs of goggles (not included)
- Operates on 110V, AC with a grounded cord
- Includes 6' of electrical cord with NEMA 5-15P
- Cabinet is ONLY available in Bright White #693226

RECESSED OPERATING ROOM CABINETS

60" HIGH X 18" DEEP

Construction Features:

- Powder coated steel construction. Also available in type 304 stainless steel, or type 316 stainless steel
- All exposed welds are ground and polished to match a #4 finish
- Cabinets will fit into an opening of: cabinet width minus 1" to 2" x 57-3/4" high x 18" minimum depth

This cabinet provides a flexible supply of water in any research, school or care facility and can be used all through the facility when access to water is not available.

- Available in either type 304 stainless steel or powder coated steel with protective Sigma Barrier™ coating.
- Durable stainless steel work top with raised perimeter marine edge with integrally welded sink allows for easy cleaning.
- Work top provides a 1" overhang on all four sides.
- Automatic faucet with infrared sensor provides hands-free operation.
- Plate mounted, non-marking 5" total lock swivel castors with santoprene rubber wheels allows the user to quickly and easily move to another work station, as tasks change.
- 5 US gallon fresh water container, 5 US gallon waste water container with drain spigot for easy release of waste water into the floor drain.
- Automatic pump provides up to 1.1 US gallons per minute with maximum current draw of 1.9 amperes at 12 volt.
- Onboard sealed 12volt battery and 1.5 amp automatic charger including 6' cord and plug. Manual power switch on cabinet side.
- Doors on front and back of cabinet provides convenient access for servicing.
- Shipped assembled and skidded.
- Use option code WS for supply hose to hook up with facility water supply, if fresh water tank and pump is not required.

ACID CABINETS

CONSTRUCTION DETAILS

Acid Cabinet Details

- Polyethylene liner and phenolic resin shelf are chemically resistant in acid cabinets.
- The removable liner is secured with capped stainless steel screws and includes a vent connection.
- Vent location applies to 28-3/4", 31-3/4", and 34-3/4" height full door (Fig. 1) cabinets. For false panel units (Fig. 2) dimension A varies with the height of the cabinet. Cabinets are marked "ACID" - in red letters.
- Note: acid cabinets must be vented. Mott recommends venting acid cabinets with a Polyolefin vent kit (PVSS or PVSA for field retrofit - see fume hood section).

Cabinet Vent Hole Locations

Acid Cabinet Rear View

SOLVENT/PUMP CABINETS

CONSTRUCTION DETAILS

Insulated & Non-Insulated Solvent Cabinet Details

- Insulated solvent storage cabinets are fabricated with 2" insulated double walls, meet National Fire Protection Association standards and undercounter sizes are approved to UL1275.
- Uninsulated safety cabinets meet National Fire Protection Association standards.
- Insulated and non-insulated solvent cabinet floors have one 2" deep liquid tight spill containment pan.
- Doors are mounted on continuous hinges with a three point locking self latching handle.
- Each cabinet has two 2" diameter vents in the rear of the cabinet, complete with flame arrestor and vent covers. Vent location applies to 28-3/4", 31-3/4", 34-3/4", 44" and 65" height cabinets.
- Cabinets are provided with one full depth shelf, adjustable in 1/2" increments.
- Cabinets are marked "FLAMMABLE KEEP FIRE AWAY" - in red letters.
- Self closing doors are standard, with option to add a fusible link.
- Note: NFPA30 Fire code does not require solvent cabinets to be vented. Do not vent solvent cabinets to fume hood. If cabinet must be vented use fireproof pipe. Contact Mott for details.

Cabinet Vent Hole Locations

Solvent Cabinet Rear View

Pump Storage Cabinet Details

- Pump cabinets are insulated with 1" thick acoustic foam which provides sound absorption and noise reduction over a wide range of frequencies.
- Foam is incorporated to the interior of the cabinet including the door and it is contained with a mechanical inner steel frame. The foam is fire resistant and complies with MVSS 302 AND UL94 HF-1 requirements.
- Two vent holes are incorporated in the cabinet back for connections to centralized lab exhaust systems. Vent location applies to 28-3/4", 31-3/4", and 34-3/4" height full door (Fig. 1) cabinets. For false panel units (Fig. 2) dimension A varies with the height of the cabinet. Custom vent cutouts are available.
- Back access panel is easily removable to provide convenient access to venting or electrical connections after installation.
- One 120 Volt / 20 Amp (15 Amp in Canada) electrical duplex receptacle provides power to the vacuum pump (final power connection required).
- The switch that controls receptacles is located on the front panel on false panel units; full height door units are typically wired through the fume hood.

SPECIALTY CABINET OPTIONS

Option	Description
00	Modified door/drawer configuration
02	Label holders on all doors/drawers
03	Numeric or alpha identification disks on all doors/drawers (customer details required)
04	Standard louver configuration on doors (6 louvers at 3" wide x 5-1/2" long)
05	Non-standard louver configuration on doors (customer drawing required)
07	Cut-outs for electrical and/or plumbing services (customer drawing required)
08	Security proof panel
09	Stainless steel waste flap
10	One fixed drawer divider per drawer (centered in drawer)
11	Multiple drawer dividers per drawer (customer drawing required)
14	Ventilation grill in toe kick base
15	Finished back on cabinet
16	Ship handles not installed
17	Nylon levelers
18	Horizontally mounted handles
26	200lb full extension drawer runners
40	One extra cabinet shelf
41	Two extra cabinet shelves
42	One interior cabinet shelf on full extension runners (replaces fixed shelf)
43	Two interior cabinet shelf on full extension runners (replaces fixed shelf)
44	Three interior cabinet shelf on full extension runners (replaces fixed shelf)
50	304 stainless steel drawer bodies in power coated cold rolled steel cabinet
51	Entire 304 stainless steel component
52	Entire 316 stainless steel component
53	Entire galvalume steel cabinet construction (Sigma Barrier™)
56	Other customer specified material
59	Customer specified runners (customer details required)
70	Front toe kick
71	Toe kick - front & left side
72	Toe kick - front & right side
73	Toe kick - front & 2 sides
74	Toe kick - front & back

Option	Description
75	Toe kick - front, back & two sides
76	Replace toe kick with four legs
77	Replace toe kick on base cabinets with four casters
78	Replace toe kick with customer specified casters
79	Other customer specified base or toe kick
BL	BASE label (use this option code to replace standard label on acid cabinets)
CL	CORROSIVES label (use this option code to replace standard label on acid cabinets)
CSA	ESA inspection required with a CSA label
ESA	ESA inspection required
C25	Replace toe kick on base cabinets with 250lb casters
C35	Replace toe kick on base cabinets with 350lb casters
FL	Fusible link for self closing doors for insulated solvent unit*
F1	Welded finished top
F2	Welded finished top & back
LA	Bilingual label (French/English)
NB	No base, cabinet to sit on floor, levelers included
NC	No base, cabinet to sit on 4" high curb, levelers not included
NF	No cabinet floor and toe kick is integral with door
NFD	Pump cabinet unit with no cabinet floor and toe kick is integral with the door, dolly included
OL	Overlay design (not available on Solvent cabinets)
PF	Fan for pump cabinet
PP	Pre-plumbed (option code not to be used for fume hoods and customer details required)
PT	Single Polypropylene tray for acid cabinets
PW	Pre-wired (option code not to be used for fume hoods, customer details required)
P1	Plumbing - mount only
P2	Factory pre-plumbed up
RL	Remote LED light that indicates the door is unlocked, for Double Door Security Cabinets
SK	Skid item
T1	Replace one shelf with one pull out tray on full extension runners with 2" high lip
T2	Replace two shelf with two pull out tray on full extension runners with 2" high lip
T3	Replace three shelf with three pull out tray on full extension runners with 2" high lip
VK	Corrugated Polyolefin vent kit for acid cabinets
VS	Vent holes on the side of the cabinet
WF	Wood fronts - see specifications
WO	Wood fronts provided and installed by others

Notes: *Designed for use on solvent cabinets with self-closing. A fusible link holds doors open during use and melts at 165° F to automatically close the doors in the event of a fire.

- Pencil Drawers and Pull Out Writing Tablets suspends from tables with hanging rails and are supplied with full extension runners
- When ordering a table with aprons, add option code HU to suspend Pencil Drawer
- Pencil Drawers and Pull Out Writing Tablets do not fit on a 22" deep table

Hanging CPU Holder

Item Number

CPU1010

- Suspends from tables with hanging rails and is supplied with full extension runners to slide out CPU unit
- Inside clear dimension of CPU holder is 9-3/16"
- Hanging CPU Holder does not fit on a 22" deep table
- When ordering a table with aprons, add option code HU to suspend CPU holder

SUSPENDED CABINET OPTIONS

Option	Description
00	Modified door/drawer configuration
02	Label holders on all doors/drawers
03	Numeric or alpha identification disks on all doors/drawers (customer details required)
04	Standard louver configuration on doors (6 louvers at 3" wide x 5-1/2" high)
05	Non-standard louver configuration on doors (customer drawing required)
07	Cut-outs for electrical and/or plumbing services (customer drawing required)
08	Security proof panel(s)
09	Stainless steel waste flap
10	One fixed drawer divider per drawer (centered in drawer)
11	Multiple drawer dividers per drawer (customer drawing required)
12	Pull out writing board * - cold rolled steel
13	Pull out writing board - cold rolled steel & high pressure laminate writing surface
15	Finished back on cabinet
16	Ship handles not installed
18	Horizontally mounted handles on doors
26	200lb full extension drawer runners
40	One extra cabinet shelf
41	Two extra cabinet shelves
42	One interior cabinet shelf on full extension runners (replaces fixed shelf)
48	Keyboard tray (replaces drawer)
50	304 stainless steel drawer bodies in power coated cold rolled steel cabinet
51	Component made from 304 stainless steel
52	Component made from 316 stainless steel
53	Galvenneal steel cabinet construction (Sigma Barrier™)
54	304 stainless steel drawer bodies in galvenneal steel cabinet (Sigma Barrier™)
56	Other customer specified material
59	Customer specified runners (customer details required)

See Steel Specification & Options section for information on the following options:

- Door and drawer handles
- Door hinges
- Drawer body and suspension
- Lock and key options

Note: *30" wide cabinets and larger receive two pull out writing boards, one pull out board is provided on full width drawer cabinets.

Note: **Designed for use on solvent cabinets with self-closing. A fusible link holds doors open during use and melts at 165° F to automatically close the doors in the event of a fire.

Option	Description
84	Stainless steel bin insert
85	PVC bin insert
89	Lazy Susan storage unit for corner cabinets
90	Sink supports - for under counter mounted sinks
BL	BASE label (use this option code to replace standard label on acid cabinet)
CL	CORROSIVES label (use this option code to replace standard label on acid cabinet)
DC2	Magnetic door catch
F1	Welded finished top
F2	Welded finished top & back
F26	200lb full extension runners on file drawers
FCW	Front corners of doors and drawers welded
FL	Fusible link with self closer for insulated solvent unit**
I01	100lb full extension runners with interlock
I26	200lb full extension runners with interlock
LA	Bilingual label (French/English)
LF	Longitudinal file hangers on file drawers
OL	Overlay design (not available on Solvent Cabinets)
PP	Pre-plumbed (option code not to be used for fume hoods and customer details required)
PW	Pre-wired (customer details required)
PDC	Positive door catch (standard on overlay cabinets)
PFE	Pull out writing board * on full extension runners
RB	Removable back on drawer cabinet
SK	Skid item
SP	Silk screen printing (to replace standard labels on acid cabinet and/or flammable cabinet)
S01	100lb full extension soft close drawer runners
S26	200lb full extension soft close drawer runners
T1	Replace one shelf with one pull out tray on full extension runners with 2" high lip
T2	Replace two shelf with two pull out tray on full extension runners with 2" high lip
T3	Replace three shelf with three pull out tray on full extension runners with 2" high lip
VK	Corrugated Polyolefin vent kit for acid cabinets
VS	Vent holes on side of cabinet
WF	Wood fronts - see specifications
WO	Wood fronts provided and installed by others

1" Front Wall Filler (WFS or WFP)*

Top View Shown

Front Wall Filler (WFS or WFP)

- The Overlay Corner Dust Caps are designed to close the corner space left by two wall cabinets. They are used in conjunction with a Sloping Dust Cap.
- 8-3/8" high.
- Order Overlay Corner Dust Cap based on cabinet width. Extra long sloping dust cap required see below to order.
- Cabinets must be equal depth.
- Order Front Wall Filler (WFS or WFP) in conjunction with an Overlay Corner Dust Cap.
- When ordering Overlay Corner Dust Caps, always use left hand (Part A) side to be the corner overlaying dust cap.

- Order Overlay Corner Dust Cap based on cabinet width. Extra long Sloping Dust Cap required.

- Three cylinder deep storage rack.
- Holds up to 10" diameter cylinders.
- Welded steel rack 30"high x 38"deep.
- Secure to both walls and floor with ½" steel anchor bolts.
- Non-kink zinc plated chain.

MISCELLANEOUS ITEMS

Reagent Island Shelving Unit

Reagent Island Shelving Units are designed to provide support for shelving and are 1" wide by 2" deep. Units are available in custom lengths to suit your exact requirements.

Reagent Uprights

Item Number

RIV0090

- Used to create island assemblies where upright shelving is needed and relies on adjacent fixed casework for support.
- Reagent Uprights are 90" high by 1" wide by 2" deep tubing and are supplied with base support and hardware.
- Uprights are double slotted on both sides allowing shelving to be adjustable in 1" increments.
- Reagent Uprights are only suitable with "RIB" Shelf Brackets.
- Reagent Uprights are not suitable for suspending cabinets or work surfaces.

Reagent Upper Rail

Item Number

RIH0120

- Used for island assemblies where upright shelving is needed and relies on adjacent fixed casework for support.
- Reagent Upper Rails are 1" high by 2" deep by 120" long tubing.
- Maximum length available without a seam in upper rail is 120" long.
- Available in custom lengths to suit your requirements.
- Supplied with two black plastic end caps.

Reagent Upper Rail Jointer

Item Number

RIJ0000

- Used for joining two Reagent Upper Rails together.
- Fits inside of 1" high by 2" deep tubing.
- Reagent Upper Rail Jointer is 6" long.
- Supplied with hardware.

MISCELLANEOUS ITEMS

Reagent Island Steel & Wood Shelves

- Shelves suitable for Reagent Island shelving units.
- Shelves are actual widths.
- Add 1" angles to shelves by using option codes:

- 1" high retainer rod (5/16" dia.) Prevents articles from falling off the shelf.
- Available in stainless steel or powder coated stainless steel and can be added to existing shelves. Ships loose.
- Threaded turrets includes hardware for mounting to shelf (shelf must have holes drilled to accept turrets).
- MI and MIW at the end of the part numbers represent option codes.

MISCELLANEOUS ITEMS

Sigma Flex™ Wall Pilasters

- Single Slotted Pilasters are 13/16" deep by 1-1/4" wide.
- Double Slotted Pilasters are 13/16" deep by 2-1/2" wide.
- Pilasters are adjustable in 1" increments. Accepts Sigma Flex™ shelves.
- Fastens to wall to give support structure where no services are required.
- Ensure wall is of sufficient strength to support intended load (significant blocking required).

- 1" high retainer rod (5/16" dia.) Prevents articles from falling off the shelf.
- Available in stainless steel or powder coated stainless steel and can be added to existing shelves.
- Threaded turrets includes hardware for mounting to shelf (shelf must have holes drilled to accept turrets).
- Ships loose.
- MI and MIW at the end of the part numbers represent option codes.

- Brackets only suitable for Reagent components.
- Pair of shelf brackets are 4-1/4" high.

Brightedge Portable - Premium Quality Magnetic LED Light Fixture

- Delivers a minimum average of 50 fc to work surface located 20" below mounting position with uniform illumination
- Maximum wattage: 4.5 watts per linear foot
- Light output from fixture: 435 lumens per linear foot
- Incremental dimming
- Minimum Color Rendering Index (CRI): 95
- Correlated Color temperature to be 3500K, color shift over life of fixture to be maximum +/- 100K, other light temperatures available
- Minimum estimated life to 70% (TM-21) of light output: > 50,000 hours
- When motion is not detected for 30 minutes, the light shall go off but turn on again with motion detection
- If motion is not sensed within 60 minutes, the motion sensor shuts off, requiring the physical switch to turn the light back on
- White magnetic wire management clips, white cords and white power supply
- Standard Lengths: 23", 29", 35", 38", 50", 62" with additional lengths available
- Light fixtures can be interconnected up to 60 Watts and have either independent or connected controls

MISCELLANEOUS ITEMS

PEGBOARDS

Epoxy Pegboards

- Black epoxy, 1" thick construction.
- Accepts 2" and 4" deep drip troughs. Must be ordered separately.
- Add option code "15" for finished back.
- 5" long, 3/8" diameter, white polypropylene pegs included. For black pegs use option code "PB" For gray pegs use option code "PG".

Phenolic Pegboards

- Black phenolic, 1" thick construction.
- Accepts 2" and 4" deep drip troughs. Must be ordered separately.
- 5" long, 3/8" diameter, white polypropylene pegs included. For black pegs use option code "PB" For gray pegs use option code "PG".

Stainless Steel Pegboards

- 20 gauge, type 304 stainless steel with #4 finish.
- Add option "ZR" for "Z" wall mounting rail.
- Provided with a 2" or 4" deep drip trough integral to the pegboard.
- Add option code "15" for stainless steel finished back.
- 5" long, 3/8" diameter, white polypropylene pegs included. For black pegs use option code "PB" For gray pegs use option code "PG".

60"	FPA1060	FPA0060
72"	FPA1072	FPA0072
96"	FPA1096	FPA0096

- Single Slotted Pilasters are 13/16" deep by 1-1/4" wide.
- Double Slotted Pilasters are 13/16" deep by 2-1/2" wide.
- Pilasters are adjustable in 1" increments.
- Fastens to wall to give support structure where no services are required.
- Ensure wall is of sufficient strength to support intended load (significant blocking required).

MISCELLANEOUS ITEMS

METAL FRAMING SYSTEM

Continuous Slot Metal Framing System

- Installs quickly
- Completely adjustable
- Re-usable
- Eliminates all welding, drilling and use of special tools

1. Place the spring nut anywhere along the continuous slotted channel.

2. Turn clockwise 90° to line up the grooves in the nut with the inturred edges of the channel.

3. Inset the bolt through the fitting and into the spring nut.

4. Added channels are able to be bolted to the existing fitting by following procedure described in steps 1-3.

5. Using a wrench to tighten the bolt will lock the serrated teeth of the channel nut onto the inturred edges of the channel.

MISCELLANEOUS ITEMS

METAL FRAMING SYSTEM

1-5/8" x 1-5/8" Channel

Channels are accurately and carefully cold rolled formed to size from low-carbon strip steel. Cold rolled and stainless steel are offered in 12 gauge.

1-5/8" x 13/16" Channel

Channels are accurately and carefully cold rolled formed to size from low-carbon strip steel. Cold rolled and stainless steel are offered only 16 gauge.

Channel Details

- Wt/100 Ft: 378 Lbs (281 kg/100m).
- Allowable Moment 5,070 In-Lbs (570 N*m).
- 12 gauge Nominal Thickness .105" (2.7mm).

- Height: 13/16"
- Available in powder coated steel or stainless steel.

MISCELLANEOUS ITEMS

METAL FRAMING SYSTEM

Channel Nuts

Channel nuts are machined from steel bars and are case hardened. Nuts are designed with shaped ends that allow them to be turned clockwise within the channel after insertion through the opening. The channel nut is held in place when the two grooves with the serrated teeth engage the inturns of the channel after the bolt is tightened. This stops any movement of the nut and bolt within the framing member. Channel nuts conform to ASTM Specification A1011 SS GR 33 (material only). Screws conform to SAE J429 GR.
