Reagent Island Shelving Unit

Reagent Island Shelving Units are designed to provide support for shelving and are 1" wide by 2" deep. Units are available in custom lengths to suit your exact requirements.

Reagent Uprights

Item Number

RIV0090

- Used to create island assemblies where upright shelving is needed and relies on adjacent fixed casework for support.
- Reagent Uprights are 90" high by 1" wide by 2" deep tubing and are supplied with base support and hardware.
- Uprights are double slotted on both sides allowing shelving to be adjustable in 1" increments.
- Reagent Uprights are only suitable with "RIB" Shelf Brackets.
- Reagent Uprights are not suitable for suspending cabinets or work surfaces.

Reagent Upper Rail

Item Number

RIH0120

- Used for island assemblies where upright shelving is needed and relies on adjacent fixed casework for support.
- Reagent Upper Rails are 1" high by 2" deep by 120" long tubing.
- Maximum length available without a seam in upper rail is 120" long.
- Available in custom lengths to suit your requirements.
- Supplied with two black plastic end caps.

Reagent Upper Rail Jointer

Item Number

RIJ0000

- Used for joining two Reagent Upper Rails together.
- Fits inside of 1" high by 2" deep tubing.
- Reagent Upper Rail Jointer is 6" long.
- Supplied with hardware.
