

THE END OF FLUORESCENT LAMPS

Snite LED is the perfect solution for low-cost lighting projects. With its price and performance, Snite LED is the perfect alternative to replace the fluorescent lamp. Compared with the old technology, Snite LED uses only half of the energy and has more than **twice of the lifetime** with the same light output. The investment for the latest LED technology will pay for itself in the shortest time.

PRODUCT CHARACTERISTICS

- Available in six lengths from 1' to 5' which can easily connect to one another
- Standard in 4000K with other light temperatures available
- High efficiency with 87 Lm/W
- Optional inline rocker switch available by special order
