

Pharmaceutical Company: 9th Floor Renovation

Boston, Massachusetts

Featured Products:

TABLES

FUME HOODS

CABINETS

EPOXY TOPS

With Sterling Construction renovating the 9th Floor of 451 D Street as one of many spec labs in Related Beal's real estate developments, NEL Direct was chosen to provide products with a quick turnaround time. The fit-up features mobile, height-adjustable Cambridge Series tables with strut overhead shelving and electrical strip assemblies. Bright White painted steel base cabinets and sink stations were equipped with epoxy tops. Bench-mounted fume hoods and specialty cabinets complete the new space for Inozyme Pharma's research and development group.
