- **Architect:** Hecht and Associates Architects, Inc.
- **GC:** Shawmut Design & Construction

In this new space for Harvard University - Kunes Lab

Lexington Series Wood Veneer Casework

Epoxy Resin Tops, Sinks and Pegboards

LEED Qualifying Eco-Friendly Materials

For this LEED Gold renovation project New England Lab provided custom Lexington Series wood benches with custom pulls and designer hardware. Adjustable upper wood shelves supported by a custom steel system provided above counter storage. Each island bench contained epoxy lower shelves, epoxy peg boards and epoxy counter tops with integral drain grooves. Custom wood storage cabinets with glass doors were provided along with custom tack and marker boards at both write up and collaboration research spaces.
