

the right formula for MicroCHIPS - Electrical - Mechanical Labs

OVERVIEW

- **Project:** mmmmmmmmmmmmmmmmmmmmmmmmmmmmmmm
- **Architect:** Olsen Lewis Dioli & Doktor Architects & Planners, Inc.
- **GC:** Siena Construction Corp.

In this new space for MicroCHIPS - Electro-Mechanical Labs

Arlington Series Plastic Laminate Casework

Cambridge Series Fixed H-Frame Tables

Epoxy Resin, Plastic Laminate and Phenolic Resin Tops

Harvard Series Fume Hoods

New England Lab furnished and installed fixed Manchester Series painted steel casework, Harvard Series fume hoods and Cambridge Series table systems. Table accessories feature relocatable suspended storage cabinets as well as CPU holders and pullout keyboard trays. Tables were pre-wired with electrical power strips that plugged into wall outlets or power poles to provide maximum flexibility. Phenolic resin, epoxy resin and plastic laminate work surfaces were selected for their intended use within the electromechanical labs.
